# For The Commodore Computers

SNATCH – INSTRUCTIONS

To insure proper operation follow these instructions EXACTLY:

1. Turn on computer.
2. Insert tape into datacassette.
3. Rewind tape to beginning.
4. Hit (SHIFT) + (RUN/STOP) keys at the same time. Be sure to use the left shift key.
5. Press 'PLAY' on the datacassette.

After 10 to 15 seconds the words FOUND SNATCH and LOADING will appear on the screen. The program will automatically start running shortly thereafter.

If the word ERROR appears on the screen then a LOAD ERROR has occurred. Turn off the computer and restart from step #1.

PLAYING INSTRUCTIONS

You are the Commander of an intergalactic battle cruiser. Your mission is to destroy as many colonies of poisonous organisms (known as Snatches) as possible. In addition, you can gain more points by destroying the aliens known as X-Raiders.

But watch out!! At any moment your ship may be destroyed by meteorites. It is up to you to carry out your mission while avoiding all obstacles. You may move your ship right by pressing 'CRSR RIGHT' key; left by pressing 'CRSR DOWN' key.
