Jeremy Silman's Guide to Chess Openings \$34.95

Having this product is like carrying two suits of armor into a chess tournament, one for playing the White pieces and one for playing the Black pieces. Where the Whitehead product teaches you everything from how the pieces move, through middle game tactics and endgame techniques, the *Guide to Chess Openings* is a 50% larger knowledge base that concentrates entirely on the openings. It is a stand-alone product, but it also makes an excellent companion to the Whitehead product.

Jeremy Silman is the Editor-in-Chief of *International Players' Chess News*, and is one of the top chess players in the United States. In his *Guide to Chess Openings*, he selects the best move for the side that you are playing, explains it, and then offers branching to the moves that your opponent will most likely make.

If your opponent plays perfectly, Silman shows you how to survive the opening with an even game.

If your opponent makes a mistake, however slight, Silman explains how to beat him and shows the winning move sequences.

For beginners to masters, *Guide to Chess Openings* provides a complete, cohesive system that has been proven in tournament play. Also contains FREE the *Coffeehouse Chess Monster*, our fully-featured chess opponent program.

King's Indian Defense \$19.95 (4.e4 lines) by Edward A. Chang and Peter Biyiasas, FIDE Grandmaster

This is a complete and very deep analysis of one of the most popular openings in chess. It includes some original analysis by Grandmaster Biyiasas that is revealed here for the first time, as well as the best existing analysis compiled from many sources. You can spring these lines on even the most advanced players. Works with, but does not include, the *Coffeehouse Chess Monster*.

50 Annotated Chess Classics \$19.95

Fully annotated by American Open Champion Paul Whitehead

Studying the games of the great chess Masters, fully annotated on-screen by American Open Champion Paul Whitehead, is an easy way to grasp the action and the subtleties of chess. From the free-swinging 19th Century masters, through the Bobby Fischer era, to the present Kasparov-Karpov era, Whitehead presents the World's 50 most exciting chess games.

This is not a comprehensive tutorial on every aspect of chess like *Paul Whitehead Teaches Chess*. It is just a delightful romp through eight ages of chess and fifty of the most smashing, crashing, bone-crushing games of chess ever played, fully annotated by the best chess tour-guide ever, Paul Whitehead.

Najdorf Sicilian Defense \$19.95 by Louie Ladow and Peter Biyiasas, FIDE Grandmaster

A favorite of World Champion Bobby Fischer and of six-time U.S. Champion Walter Browne, the *Najdorf Sicilian* is for those fearless souls who want to win even while playing the Black pieces. Again, we have compiled the best existing analysis, then let Grandmaster Biyiasas improve upon it. Works with, but does not include, the *Coffeehouse Chess Monster*.

Bobby Fischer's Career \$22.50

This program is a departure from our extensively annotated tutorials. Here we present the 777 games of Fischer's entire professional chess career in the best possible way — animated on computer. Watch the great games of chess come to life on your computer screen, with the ease of a single keystroke. Quickly grasp the game action without juggling your attention between the chessboard and notation in a book.
