

50 Annotated Chess Classics

INSTRUCTIONS

TO BEGIN:

- **DISCONNECT ALL CARTRIDGES OR MODEMS** and make sure that only the 1541 or 1571 disk drive is using the serial bus.
- **IF YOU HAVE A DRIVE 9, TURN IT OFF.**
- **IF YOU HAVE A COMMODORE PRINTER, TURN IT OFF.**
- **IF YOU HAVE A NON-COMMODORE PRINTER,** turn it off and disconnect the printer interface *from the cassette port*. You can reconnect and turn the printer on later, when it is needed.

Insert Disk Side 1 into the disk drive and type:
LOAD "*",8,1 [RETURN]

At any Board onward, there will be a flashing cursor next to the words "Hit Choice" or "Hit Cursor" to prompt you for action.

"Hit Choice" means that you should type a number (1-9) corresponding to the choice you wish to see.

"Hit Cursor" means that you should hit the Right CRSR to go forward one move, or the Down CRSR to go back one. If you hit the Down CRSR when you are at the first move on a given Board (not necessarily Move 1), it will take you up to the previous "Hit Choice" point, or "parent" of that Board.

Hitting the Up Arrow (not the up CRSR key) at any point will take you back to the previous "Hit Choice" point. This is a fast way to go back upward through the Road Maps.

Hit "+" to Get to the Express Depot. From the Express Depot, you can get to any Board on the Disk just by typing its number. (See Road Maps for a detailing of the Board Numbers and their contents.)

[over]

Hit **"x"** to flip the Board. Now you can see the pieces from either White's or Black's point of view.

Hit **"I"** to review these instructions on-screen. From any screen (except the Title Page and Express Depot) you can review these instructions on-screen. Just hit **"I"** to view them. After viewing them (and hitting space bar as instructed), it will return you to your "bookmark" in the tutorial.

Hit **"d"** to view the material on Side 2. The disk drive light will go out and it will ask you to insert a date disk. Flip the disk, re-insert, and hit **RETURN**. It will take you to the Express Depot of Side 2. Repeat the process to get back to Side 1.

USING THE ROAD MAPS: The enclosed Road Maps show the tree-like structure of this tutorial. Board Numbers are beneath the descriptions of each branch. Using these Board Numbers with the EXPRESS DEPOT is a shortcut for getting to a particular Board. You can also use the ROAD MAPS to track your journey through the tutorial, checking off the places you've been and jotting down notes. The asterisks indicate Boards with "accelerator links" that allow you to go directly back to the Section Menu.

WARRANTY AND LIABILITY

Enlightenment, Inc., warrants the disk this program is recorded on to be free of defects for a period of ninety (90) days from the date of original purchase. Should the disk fail for any reason within this period, return the failed disk with proof of purchase to Enlightenment, Inc., PO Box 146490, San Francisco, CA 94114-6490. We will promptly send you a replacement.

And to satisfy the lawyers...
